DUAL MODE (Qi&PMA)
WIRELESS RECEIVER CASE

Made for
iPhone

miniBatt PowerCASE is a dual Wireless receiver case that enables your iPhone 6 or 7 and 6 Plus or 7 Plus to accept both Qi and PMA Wireless charging technologies.

Specially designed to enable Wireless charging on Apple devices, they feature a slim, ultra-lightweight design with a sliding system to enable wireless or standard charging options.

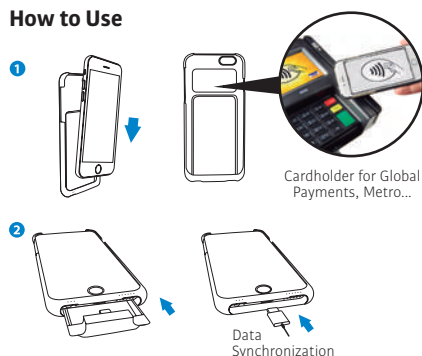

Produced with the highest quality components using a Texas Instruments chip, the **miniBatt PowerCASE** also includes Dynamic Power Limiting and Foreign Object Detection Technology.

Specifically developed to connect to iPhone 6, 6 Plus, 7 and 7 Plus, **miniBatt PowerCASE** has been certified to meet Apple performance standards as well as CE, RoHs and FCC certification.
